Subject: Distributor template for SEA appointments

Jonathan,

We are appointing distributors across five markets and we need one template we can use for all of them. We are the brand owner and we are granting the rights.

The template should be firmly ours: appointment non-exclusive and revocable, no buy-back on termination, liability capped at the value of the order in question, and an indemnity running from the distributor to us. We also want to be able to terminate on ninety days for any reason.
